

SAAS Funding – Postgraduate Students

The Student Awards Agency Scotland is here to help you to find the right information, support and funding

- ✓ Informing Choices
- ✓ Funding Futures
- ✓ Supporting Success

Courses we fund

We fund courses at postgraduate diploma or masters level. We do not offer postgraduate funding for Graduate Diplomas, Postgraduate Certificates or PhDs. If you are studying a full-time PGDE teaching course, you will receive the same funding as a full-time undergraduate course.

Funding is available for taught and research based courses, as well as certain courses delivered by distance learning. However, there must be a minimum amount of teaching or contact time between the student and teaching staff.

Other conditions for full-time courses

- Postgraduate diplomas must be no longer than 1 year
- Masters level courses must be no longer than 2 years

Other conditions for part-time courses

- You must take no longer than twice the length of the full-time equivalent course at the same university to complete your studies
- If there is no full-time equivalent course available at the same university, you must take no longer than 3 years to complete your studies
- The course must be delivered in Scotland

Funding available

Full-time courses

For eligible full-time courses you can apply for a tuition fee loan of up to £7,000 and a living costs loan of up to £6,900. If you study a 2 year full-time course, these amounts will be split equally across each year of the course.

Part-time courses

For eligible part-time courses you can apply for the tuition fee loan of up to £7,000.

This will be split between the number of years you study. Part-time students are not eligible to receive a living costs loan.

Other available funding

If you have a disability or additional learning needs, you may qualify for Disabled Students' Allowance. This is usually a non-repayable grant.

Visit www.saas.gov.uk for more information and to view our full eligibility criteria.

Funding at postgraduate level is not based on your household income.

Funding your future

Applying for a student loan

You must apply to SAAS for a student loan. The Student Loans Company (SLC) will then process your payments and payment schedule.

You will not have to start repaying your loan until the April after you graduate or leave your course and are earning over the income threshold. You will be expected to pay 9% of any income you earn over £31,395. This means if you earn £32,395 a year, you would repay £7.50 a month.

Previous study

We do not normally take into account any funding you have received at undergraduate level.

However, you will not be eligible for funding if you have already received funding from UK or other EU public funds for a course of postgraduate study and gained a qualification.

How to apply

You can apply to us at www.saas.gov.uk from **April**, as soon as you know the course you want to study. Do not wait for exam results.

If you do not get on the course you want, you can easily change or cancel your application online through your SAAS Account.

You must submit your completed application at www.saas.gov.uk and send any supporting evidence through our SAAS document uploader. Remember to apply as early as possible and before **30 June** to ensure your funding is in place for the start of your course.

What you need to apply

- your current email address
- your SAAS reference number if you have applied before
- your National Insurance number
- your bank sort code and account number
- your college or university and course details
